

MONGOLFIERA

Rebuild by Andrew Benzie
andrew@andrewworld.com

for X-Plane v8.50

AB Air Version 1.0
October 2006

Please Note: This vehicle is an updated and/or modified version of another author's original work. Please refer to the original README file (located within the same directory as this file, if available) for more information. I have obtained the original author's permission whenever necessary. I would like to sincerely thank the original author(s) for providing me a solid foundation on which to build; without their work this release would not be possible. This guide is not to be misconstrued as a reference for real-world applications.

HISTORY

This is a repaint of the original Mongolfiera Air Ballon created by Max at www.dmax.it. Please see the ReadMe Original folder for more information.

For when you have a lot of time and no where to go. Lots of fun just drifting and observing the world going by. Simplicity at its best.

the mongolfiera filling up it's balloon

elegant and simple controls

WHAT'S NEW

- new exterior paint job

I found this stock craft works very well as is. Max, the original author did an excellent job designing and constructing this craft.

Comments are always appreciated:
